# NOTES TO THE SEMI-ANNUAL REPORT FOR THE PERIOD ENDED 30 JUNE 2012

#### 1.) GENERAL

The Ethna-GLOBAL Dynamisch investment fund is managed by ETHENEA Independent Investors S.A. pursuant to the fund's management regulations. The management regulations first came into force on 9 September 2008. They were filed with the Luxembourg Trade and Companies Register with a reference to this filing published in Mémorial, Recueil des Sociétés et Associations, Official Gazette of the Grand Duchy of Luxembourg ("Mémorial"), on 31 October 2008. The management regulations were last amended on 15 December 2011, and a reference to this filing with the Trade and Companies Register in Luxembourg was published in the Mémorial on 15 January 2012.

The Ethna-GLOBAL Dynamisch fund is a Luxembourg investment fund (fonds commun de placement), which was set up in the form of a mono fund for an indefinite period in accordance with Part I of the Luxembourg law of 20 December 2002 on Undertakings for Collective Investment up to 30 June 2011 and the amended law of the same name of 17 December 2010 (hereinafter "the law of 17 December 2010") from 1 July 2011.

The management company of the Fund is ETHENEA Independent Investors S.A. ("management company"), a public limited liability company incorporated under the laws of the Grand Duchy of Luxembourg with its registered office at 9a, rue Gabriel Lippmann, L-5365 Munsbach. The company was founded on 10 September 2010 for an indefinite period. Its Articles of Association were published on 15 September 2010 in the Mémorial. Amendments to the management company's Articles of Association entered into force on 1 October 2011 and were published in the Mémorial on 21 October 2011. The management company is registered with the Luxembourg Trade and Companies Register under the registration number R.C.S. Luxemburg B-155427.

#### 2.) KEY ACCOUNTING AND VALUATION PRINCIPLES

This report is being prepared under the responsibility of the Board of Directors of the management company in accordance with the statutory provisions and regulations on the preparation and presentation of reports applicable in Luxembourg.

- 1. The fund's net assets are stated in euros (EUR) ("reference currency").
- 2. The value of a fund unit ("unit value") is stated in the currency ("fund currency") as specified in the annex to the Sales Prospectus unless a currency other than the fund currency is specified for any other unit classes in the annex to the Prospectus ("unit class currency").
- 3. The unit value is calculated by the management company or by an agent commissioned by it under the supervision of the custodian bank on any banking day in Luxembourg with the exception of 24 and 31 December of each year ("valuation day"). However, the management company may decide to determine the unit value on 24 and 31 December of any given year without reference to a calculation of the unit value on a valuation day as specified in sentence 1 above of this point 3. As a consequence, investors shall not be entitled to demand the issue, redemption and/or exchange of units on the basis of a unit value calculated on 24 and/or 31 December in any year.
- 4. To calculate the unit value, the value of the assets in the fund less any fund liabilities ("net fund assets") is calculated on each valuation day, divided by the number of fund units in circulation on the valuation day and rounded to two decimal places.

- 5. To the extent that information regarding the position of the fund assets as a whole needs to be provided in annual reports, semi-annual reports or other financial statistics in accordance with legal requirements or the rules in these fund management regulations, the fund assets are translated into the reference currency. Net fund assets are calculated in accordance with the following principles:
  - a) securities listed on a stock exchange are valued using the latest available price. If a security is officially listed on several stock exchanges, the relevant price is the latest available price on the stock exchange representing the principal market for this security.
  - b) securities not officially listed on a stock exchange but traded on a regulated market are valued at a price that may be no lower than the bid price and no higher than the offer price at the time of the valuation and that the management company considers to be the best possible price at which the securities may be sold.
  - c) OTC derivatives are valued on a daily basis using a verifiable method to be specified by the management company.
  - d) UCITS or UCIs are valued at the latest determined and available redemption price. If redemption has been suspended for investment fund units or a redemption price has not been specified, these units are valued in the same way as all other assets at the relevant market value as determined by the management company in good faith using generally accepted and verifiable valuation rules.
  - e) if prices are not in line with the market and if no prices have been specified for securities other than those under a) and b), these securities and any of the other legally permissible assets are valued at the relevant market value as determined by the management company in good faith on the basis of the selling price that is likely to be achieved.
  - f) liquid assets are valued at face value plus interest.
  - g) the market value of securities and other investments denominated in a currency other than the fund currency is converted into the relevant fund currency at the most recent exchange mid rate. Gains and losses on foreign exchange transactions will be added or deducted as appropriate.

Net fund assets are reduced by any distributions paid to investors in the fund.

- 6. The unit value is calculated in accordance with the aforementioned criteria. However, if unit classes have been created within the fund, the unit value is calculated in accordance with the aforementioned criteria separately for each unit class.
- 7. For the purpose of uniformity in the tax information for German investors pursuant to section 5 (1) of the German Investment Tax Act (Investmentsteuergesetz InvStG) and of the information required by investment legislation, cumulative reinvested income over the time an investment is held and realised interim gains from target funds which are sold during the financial year are shown under ordinary income as income from investment fund units. In the event of negative interim gains, negative income from investment fund units may be shown under ordinary income.

For accounting reasons, the tables published in this report may contain rounding discrepancies of +/ - one unit (currency, percent, etc.).

#### 3.) TAXATION

#### Taxation of the fund

The fund assets are subject to a tax in the Grand Duchy of Luxembourg, the so-called "taxe d'abonnement", payable quarterly at the current rate of 0.05% p.a. of the net fund assets as reported at the end of the relevant quarter. The rate of the taxe d'abonnement for the fund or unit classes is mentioned in the annex to the Sales Prospectus. If the fund assets are invested in other Luxembourg investment funds that are already subject to the taxe d'abonnement, the tax is waived for the portion of the fund assets invested in those Luxembourg investment funds. The fund's income from the investment of fund assets is not taxed in the Grand Duchy of Luxembourg. However, this income may be subject to withholding tax in the countries in which the fund assets are invested. In such cases, neither the custodian bank nor the management company is required to collect tax certificates.

#### Taxation on income from investment fund units for the investor

Implementing Directive 2003/48/EC on the taxation of interest income ("Directive"), the Grand Duchy of Luxembourg has levied a withholding tax since 1 July 2005. This withholding tax applies to certain interest income paid in Luxembourg to natural persons that are tax residents in another member state. Under certain conditions, this withholding tax may also apply to the interest income of an investment fund. By adopting the Directive, the EU member states agreed that all interest payments should be taxed in accordance with the regulations of the country of residence. To that end, an automatic exchange of information was agreed among the national tax authorities. An exception was agreed to the effect that Luxembourg would not participate for a transitional period in the automatic exchange of information agreed by the other states. Instead, a withholding tax on interest income was introduced in Luxembourg. The rate of this withholding tax has been 35% since 1 July 2011. It is transferred anonymously to the Luxembourg tax authorities and the investor is issued a certificate in this regard. With this certificate, the withholding tax paid is fully deductible from the taxpayer's tax liability in his country of residence. By granting power of attorney to allow voluntary participation in the exchange of information between tax authorities or by submitting a "certificate to enable exemption from the deduction of withholding tax" issued by the tax authorities in the country of residence, the deduction of withholding tax can be avoided.

Unaudited semi-annual report for the period ended 30 June 2012

Prospective investors should ensure they are informed about laws and regulations which apply to the purchase, ownership and redemption of units and obtain advice if necessary.

#### 4.) USE OF INCOME

Income from unit class A is distributed. Income from unit class T is reinvested. Distribution takes place at the intervals determined from time to time by the management company. Further details on the use of income are provided in the Sales Prospectus.

#### 5.) INFORMATION ON FEES AND EXPENSES EXPENSE

Information on management and custodian fees and charges may be found in the current Sales Prospectus.
